REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record teach or suggest a movement output apparatus for controllably moving a movement output means in at least two spatial dimensions, the apparatus including: a cog means with a first diameter; a ring with a track formed on an inner surface of the ring, the track having a second diameter which is larger than the first diameter; wherein: the cog means is rotatable by first driving means; the ring is rotatable by second driving means; the cog means is arranged to move, in use, along the track; and the movement output means is attached to the cog means, whereby, in use, movement of the cog means effects movement of the movement output means, and the movement of the movement output means is controllable by control of the first and second driving means to produce substantially linear movement of the movement output means. The closest prior art (Parraga EP 465752 A1) discloses a gear changing device to manipulate a rotary input into a rotary output. Uhler (3,516,267) discloses an apparatus for changing a rotary input into an oscillating output. Hashimoto et al (5,338,170) illustrate the state of the art of depositing fillings onto moving articles on a conveyor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
